

Lifter Risers

General Lifter Riser Information:

- Risers are used to achieve taller lifter heights.
- Risers are ordered using four criteria - Lifter Series, English or Metric, Base Length, and Riser Thickness.
- Risers are available in 1" and 2" heights.
- Multiple risers can be combined to accomplish 3" and 4" heights.
- Riser material is black oxide CRS

* SM12,SM12DR,SM30, and SL19 Series Risers are wider than the lifter base plate by .125"

Lifter Riser Guidelines:

- Be sure the riser and lifter base is CLEARLY MARKED for LOCATION and ORIENTATION.
