NEW PRODUCT

GK125G

Standard Lifters released their GK125G product. The GK125G base is similar to the GK125B base but with the addition of a spring can adjacent to the guide pin for a gas or coil spring. Designed to be used on small pads or long stock lifter bars.

Guided Keeper Test Fixture Results

FEATURED PRODUCT

Double Bushing Bases Guided Keeper Series

These bases provides more bearing support while still using the same style mounting hole pattern as the "A" style base. Great for narrow Stripper Pads upstairs where only 2 units can be used.
